NELEO 90 & NELEO 125 DETAILS _

needs depending on the product you have.

LEO 50

NELEO 125

TOUCH SCREEN

Warning and explanatory gifs standard in the software to inform and guide the operator.

Door to access the stretch film rolls.

Automatic positioning by software for daily operation of stretch film replacing.

Tension is done directly on the reel holder.

Manual.

A gif advises the operator when **maintenance** must be done, it facilitates preventive maintenance, avoiding unexpected stoppages.

Possibility to block the screen with a programmable PIN, avoiding inappropriate manipulations from external or not authorized operators. Although the screen is blocked, the user has access to the basic wrapping functions.

Electrical cabinet integrated inside the machine for easy fitting in any packaging space.

GRAVITY CONVEYORS AND ACCESSORIES

Example of gravity pvc roller conveyor (casters not quoted, optional) Usually the same length at the infeed and outfeed side, to cover the total of the maximum product length.

Support until 50 Kg / linear meter – Gap between rollers: 150 mm – Diameter of PVC rollers: 50 mm

Example of vertical rollers on a gravity pvc roller conveyor.

Vertical rollers can move towards the center of the conveyor sliding by a guide.

Distance between vertical rollers should be informed before manufacturing because the guides are welded to the conveyor structure.

Example of "V shape" vertical rollers on a gravity pvc roller conveyor.

For round products or bundle of tubes, etc.. that have to be hold before wrapping. Vertical rollers can move towards the center of the conveyor sliding by a guide.

Distance between vertical rollers should be informed before manufacturing because the guides are welded to the conveyor structure.

PRODUCTION TIME (Factory)

Neleo 90 with or without gravity conveyors: average of 3 weeks from receiving the down payment. Neleo 125 with or without gravity conveyors: average of 3 weeks from receiving the down payment. Conveyors with accessories: add 2 more weeks to the above informed production time.
